Introduction

Natural Resources is responsible for the development, operation and management of provincial parks. This includes determining what and where services for the public are provided. The Department is committed to identifying where food services may be reasonably accommodated in provincial parks without negatively impacting the overall management of the park or the park experience. This Request for Applications (Application) identifies parks being made available for interested professional food vendors to submit an application.

Natural Resources has seen an increase in interest from mobile food vendors over the past decade. There is an existing provincially-owned building at Rissers Beach that the Department may consider licensing to vendors to use to serve food. Some restrictions would apply to use of the buildings so, if interested, please contact the Department for more information on these limitations before submitting an application.

In some instances, the parks being requested for use are not considered suitable for the service. In addition, the introduction of new mobile restaurants has generated additional interest at the higher use beach parks. Higher preference will be given to mobile food vendors, but all types of food vendors should apply.

1.1 Application Objectives

The purpose of this request is to allow interested parties to submit applications to provide quality food services in the unique setting of a provincial park. Should this prove successful then future requests for applications may be issued for longer terms. This Application call is also to allow the Province to effectively manage food services in provincial parks and limit it to those properties that are deemed appropriate and align with associated management objectives.

The goal of the request is to also promote healthy eating in recreation settings by providing guidance on suitable food items for the menu.

1.2 Project Schedule, Contract Period and Primary Work Location

This Application includes multiple provincial park sites. Individuals may choose to submit an application for one or more locations, however, **a separate submission must be submitted for each park.**

For the 2025 park season, the Province will consider applications for:

- Food concession vendors to operate within any provincial park designated under the Provincial Parks Act, except for the following parks as they already have existing vendors operating:
 - Crystal Crescent Beach
 - Dollar Lake
 - Martinique Beach
 - Melmerby Beach
 - Queensland Beach
 - Rainbow Haven Beach

Below is the approximate **schedule** that is expected to be followed by the successful proponent. However, this schedule represents the dates that most provincial parks open and close for the season and the specific times food concessions are available may be subject to change, at mutual agreement of the Province and the successful proponent. Proponents must outline, in their application, when they plan to operate during the season.

- Preferred start date: June, 2025
- Preferred completion date: September, 2025

The **contract** will be for a period of THREE (3) years.

1.3 Application Contact

3.3.2 Conflict of Interest

The Province reserves the right to disqualify any proponent that in the Province's sole opinion has an actual or potential conflict of interest or an unfair advantage in respect of this Application, whether existing now or is likely to arise in the future or may permit any such proponent to continue and impose such terms and conditions on that proponent, as the Province in its sole discretion may require.
